

EVAN GRAY

+1 702-419-9668 · evan_gray@mba.berkeley.edu · [linkedin.com/in/evan-m-gray](https://www.linkedin.com/in/evan-m-gray)

EDUCATION

University of California, Berkeley, Haas School of Business

May 2026

Master of Business Administration

- Top US Team in MIT Operations Competition, 2nd in West Region of VC Investment Contest (over 24 teams)
- Leadership board of Technology Club, 1st Generation Club, and Music Club; Undergraduate Leadership Coach

Northwestern University, Evanston, IL

Jun 2016

Dual BS in Applied Mathematics & Industrial Engineering, Magna cum laude

EXPERIENCE

Dolby Laboratories, San Francisco, CA *Innovation Market Analyst Intern*

Jun 2025–Present

- Influenced VP-level product strategy through customer discovery, market analysis, and GTM recommendations, and increased engineering funding for two 0-1 products (AI audio and advertising technology)
- Advanced Dolby's generative AI monetization strategy by writing a 10-page strategy memo, partnering with business development teams, and getting VP approval for the first pilot of a Dolby AI content creation tool
- Launched three cross-BU initiatives for smart glasses technology by structuring existing engineering, leading market research, and organizing a summit with 30+ stakeholders across product, R&D, and business development

Multiple Startups, Berkeley, CA *GTM Intern*

Jun 2024–May 2025

I led GTM projects at two SaaS startups (Quotr and Parter Element) in Berkeley's SkyDeck accelerator.

- Established Quotr's key operational KPIs and created a master financial model to guide hiring decisions
- Strengthened the relationship with Partner Element's first customer by identifying a \$10M+ financial error, assessing external solutions, building internal and customer-facing roadmaps, and getting customer approval

Forma.AI, Toronto, Canada

Implementation Mgr. → Senior Implementation Mgr.* **Aug 2022–Jun 2024*

\$45M Series B Software Startup allowing complex sales commission rules to be programmed with natural language

- Supported a 25% ARR increase by leading the largest project in Forma's history for a global Fortune 200 industrial firm, managing 40+ stakeholders, and meeting with customer leaders in Sales, Finance, and IT
 - Improved financial reporting accuracy by automating \$XM+ monthly accruals of sales commissions (15 FTE reduction), building monitoring dashboards, and getting approval from customer finance leaders
 - Achieved 50% global adoption in the first quarter by partnering with the customer data team and communicating recommendations on data governance to the project's steering committee
 - Built prototypes and helped ship three features to satisfy the requirements of key customer stakeholders
- Led a project under the Chief Revenue Officer to analyze customer usage data, develop a new quantitative pricing model, and convince the CEO to approve its implementation for all customers, impacting \$XXM ARR
- Built a cross-functional team to achieve the fastest deployment of Forma's software system in support of a two-day onsite demo with our CEO for a leading medical device company

ZS Associates, Chicago, IL

Associate → Senior Associate → Consultant

Nov 2018–Jul 2022

- Led global strategy and technology projects for sales compensation, creating enterprise-wide systems managing \$100M+ in annual incentive pay for 5,000+ salespeople and enabling ZS to 2x its annual revenue in the space
- Managed a team of four on a multi-year sales process transformation project for a \$20B+ agriculture company while building advisory relationships with Sales, HR, Finance, and IT, and securing \$1M+ of additional projects
- Improved fairness in a major financial services company's \$10M+ sales bonus program by both leading a software migration and advising customer leaders to move away from discretionary policies and processes
- Developed LAMP-stack systems to manage worldwide pricing and grow revenue for multiple global airlines

Epic Systems Corporation, Verona, WI *Analytics Engineer → Team Lead*

Sep 2016–Nov 2018

- Engineered database systems for the world's leading healthcare organizations, coached a team of three junior engineers, and met weekly with customer leaders to ensure the continued value of Epic's software

ADDITIONAL

- **Expertise:** Managing complexity, SQL/Databases/Backend Engineering, SaaS Sales/GTM, making incredible slides
- **Interests:** Planning unforgettable parties, DJing and creating music, playing curling (the ice sport), Indian food
